

K-Love Radio is an incredible resource that I count on every single day. I truly believe that it serves my community in a number of different positive ways. It is educational, informative, and most of all it is the only good source of music that I have found for myself and my family. The message it communicates on a daily basis is one of love, joy, and most importantly hope. It would be incredibly foolish to believe that it would be in any ones good interest to remove such a radio station. K-love radio exists to serve all listeners and unlike other station it is dedicated to spreading a positive and encouraging message. Thank You
